1.   MSL - a form

This is an example of a manuscript for KEK-MSL Progress Report 2022. You may use major word processor applications on Windows and MacOS. A LATEX file is also accepted. The manuscript is within two pages of A4 size for each proposal. The margins of a page are 25 mm for four sides. If a manuscript exceeds this limit during layout work by the editor, the editor reserves the right to shrink figure(s) and/or font sizes. The title should be the same as or similar to the experiment title in a proposal. A proposal number is shown in parentheses at the end of title. The font is Sans-serif, Helvetica, Arial, or a similar fonts and the size is 13 pt. Authors are written with the font of Times, Roman or a similar font and their size is 12 pt. The affiliations of the authors are written with Times, Roman or a similar font. They are of 11 pt in size and are slanted. The authors and the affiliations are related with a serial number, starting with the second affiliation. The main body is arranged as two-column format. The font is Times, Roman or a similar font and the size is 10 pt. The references are cited with a number between parentheses, like [1]. The figure is cited like Fig.1. The references are shown at the end of the text with Times, Roman or a similar font and the size is 10 pt. They are written of the form of vol_no (year) page_no. See the references in this example.

Fig. 1: Only a PostScript file is included in a manuscript.

Figures are provided with a PostScript file (Fig.1), otherwise the quality of the output may not be assured. A LATEX file is written with the document style "article", and the standard font size is 10 pt. The margins of a page are 25 mm for four sides. In a LATEX file, the title is written with `\Large\sf`, followed by a proposal number. Authors are writ-ten with Roman font of `\large` size. The affiliations of the authors are also written with Roman font of `\normalsize\sl`. The authors and the affiliations are related with a serial number , starting with the second affiliation. The main body in a LATEX file is arranged as two-column format. The font is Roman of size. The references are cited with a number between parentheses , like [2]. The figure is cited like Fig.1. The references in a LATEX file are shown at the end of the text. The font is Roman of `\normalsize` size. They are written of the format vo_ no(year)page_no. See the references in this example. Figures are provided as a PostScript file (Fig.1) with epsf style file, otherwise the quality of the output may not be assured.
