## Opening a Bank Account 口座の開設

### Long-term visitors:

Those who plan to stay in Japan for several months or longer can open a bank account at one of the following local banks and take advantage of many services they offer including money transfers and access to ATMs. Also note that your salary and travel expenses from KEK are paid to your account by bank transfer.

### ■ Japan Post Bank (ゆうちょ銀行)

In addition to post office services, Japan Post offers banking services. Opening a bank account with Japan Post Bank is a must to receive your government scholarship. It also allows you to withdraw money from ATMs at any post office in Japan. You need the following items to open a Japan Post Bank account:

- 1) Residence Card (在留カード)
- 2) Passport (パスポート)
- 3) Student ID, if applicable (学生証)
- 4) Seal (印鑑)\*

- Those without a seal can open an account by registering one's **signature**. Access to ATMs and transactions at the counter are available at any branch.

### ■ Jyo Bank (常陽銀行)

You need the following items to open a bank account at a Jyo Bank branch:

- 1) Residence Card (在留カード)
- 2) Passport (パスポート)
- 3) Student ID, if applicable (学生証)
- 4) Seal (印鑑)\*

- A seal is **required**. To find out whether a specific branch allows non-Japanese applicants to open an account with signature, contact the branch.

\*Seal 印鑑

If you choose to register a seal, it is wise to have one specifically for bank use for security reasons as anyone who has procured your registered seal could have access to your bank account. You can custom-order a seal online or at a store. When you are placing an order, make it known that you need one for bank use so that they can advise you on specifications (e.g., size, type).
