

Workshops and Seminars

< IMSS Science Festa >

- The 3rd IMSS Science Festa
 - March 17-18, 2015
 - Tsukuba International Congress Center (EPOCHAL), Tsukuba, Japan

< Workshop >

- CMRC Mini-Workshop on Metal-insulator Transition of 5d Electron Systems
 - June 11, 2014
 - Yon-Go-Kan 2F, KEK Tsukuba Campus
- IMSS-ISSP collaboration workshop
 - October 1, 2014
 - Yon-Go-Kan 1F, KEK Tsukuba Campus
- CMRC Workshop on "Progress in superconductivity research - Iron pnictides, cuprates, and non-equilibrium systems"
 - November, 2014
 - Yon-Go-Kan 3F, KEK Tsukuba Campus

<Seminar>

1. May 26, 2014 Yoshihiro Yamazaki (California Institute of Technology)
"Energy functions in perovskite oxides: solar fuel and fuel cells"
2. May 26, 2014 Keiichiro Nasu (KEK)
"How much time necessary to photo-generate Fermi surface from true electron vacuum ? "
3. July 7, 2014 Andrés F. Santander-Syro (Univ. Paris-Sud)
"Novel 2D electron gases at the surface of transition-metal oxides:role of topology and spin-orbit coupling"
4. July 7, 2014 Christoph Hugenschmidt (Technische Universität München)
"The Low-Energy High-Intensity Positron Beam at NEPOMUC and its Applications"
5. October 8, 2014 Clemens Ulrich (The Univ. of New South Wales, Australia)
"Spin wave dispersion in the helical spin ordered system SrFeO₃ and CaFeO₃"
6. October 14, 2014 James Sullivan (the Australian National Univ.)
"Positron annihilation studies of materials using a Surko trap-based beam"
7. October 10, 2014 Akihiro Kouda (KEK)
"Expectations of muSR studies at high temperatures"
8. October 10, 2014 Naoaki Yabuuchi (Tokyo Denki Univ.)
"インサーション材料の新展開"
