

Workshops and Seminars

< Science Festa >

Quantum Beam Science Festa FY2018

- March 12-13, 2018
- Tsukuba International Congress Center (EPOCHAL)

< Workshop >

Workshop "Electronic properties of materials and effect of hydrogen inclusion probed by quantum beams"

- December 19, 2018
- Tsukuba Campus, KEK

CMRC mini-Workshop on "Hybrid organic-inorganic perovskites (HOIPs) probed by quantum beams"

- December 26, 2018
- Tokai Campus, KEK

New development of quantum beam research on superconductors and related materials

- March 5-6, 2019
- Institute for Materials Research, Tohoku University
