Job Description

Mechanical Engineering Center of Applied Research Laboratory is in charge of advanced research and development in mechanical engineering field to support accelerator science, particle physics, and materials structure science carried out at KEK. The successful candidate will be involved in one of projects held in KEK and be expected to engage the R&D works applying mechanical engineering.

He/she may research advanced and fundamental mechanical engineering for future science programs. The post-doc position is open for candidates who are highly motivated.

Qualification

Applicant must have a Ph. D. degree awarded as of the due date for application, or is sure to have the Ph. D. degree prior to his/her starting the position at KEK.

Method of Selection

Applicant is required to come to KEK for an interview, after the application document evaluation. We would consider a video-conference for the interview, if the applicant resides outside of Japan.

Salary

Base annual salary: 3,960,000yen

Salary payment method: The above base annual salary is paid monthly. Supplementary allowance for commuting will be paid in addition.
