

Instructions on Completing an Application Form to Large Scale Simulation Program

1. The group manager should download and fill the Word file of the application form, and apply by e-mail to the address described in the offering of the program.
2. The title and abstract of research goals should be well concise and clear.
3. Reapplication is possible. At a reapplication, choose the reapplication (in Japanese) and describe the research status and reason for additional budget in the second page of the form.
4. 3000 hours of 1-node jobs are assigned for each of new application and reapplications.
5. For application to multi-node job classes, mark the 'application to multi-node' (in Japanese), and describe the estimate of the required budget and its reason and the status of program preparation in the second page. In the field of requested time, please specify the total requested time of each job group.
6. The application are reviewed by Promotion Committee of the Large-scale Simulation Program for decision of approval and assigning budget. If the preparation of program is considered not enough, the start of usage may be withheld until preparation become enough.
7. Group name must include 'sc' on the top, and within 8 alphabet letters (including 'sc'). An hyphen and underscore are unaccepted.
