

Applying for Network Connections for KEK Users

○If you need [wireless](#) LAN connection, but no need for internal intranet connection:

<Medium to long-term users> Apply for 【KEK Spot (SSID : keyaki)】

→ Next page [Wireless①](#)

<Temporary visitors and short-term users > Apply for 【Guest net (SSID : keyaki)】

→ Next page [Wireless③](#)

○If you need [wireless](#) LAN connection and also need internal intranet connection:

Please first get an approval from your host (“contact person”) in KEK, and then, apply for 【MA Cluster (SSID : tsubaki-III)】

→ Next page [Wireless②](#)

○If you want [wireless](#) LAN connection without any application process:

eduroam service provided by KEK is available for those who have eduroam account.

→ Next page [Wireless④](#)

○If you need [wired](#) LAN connection and also need internal intranet connection:

Please first get an approval from your host (“contact person”) in KEK, and then, apply directly to cluster network administrator in each building where you need the connection.

→ Next page [Wired①](#)
